

APPENDIX C – AVIATION ACTIVITY FORECASTS DATA

Frequency and Capacity Tables

The tables below show detailed information about flight departures (frequency) and capacity (available airline seats) for an average week during peak season for each year from 2005 to 2011. As noted throughout this forecast, passenger carrier operations are substantially the result of subjective decisions within the resort industry to incentivize lift. It is assumed that this dynamic will continue into the future.

Eagle County Regional Airport (EGE) Seasonal Frequency and Capacity

Between EGE and:	Carrier	Weekly Frequency	Aircraft	Average Capacity	Weekly Capacity
January-March 2005					
Atlanta	Delta	7	757	184	1,288
Charlotte	US Airways	1	757	193	193
Chicago-ORD	American	8	757	188	1,504
Cincinnati	Delta	1	757	184	184
Dallas/Ft. Worth	American	15	757	188	2,820
Denver	United	7	146	90	630
		7	320	138	966
		7	752	182	1,274
		21	DH2	37	777
Houston	Continental	7	757	175	1,225
Los Angeles	American	5	757	188	940
Miami	American	1	757	188	188
Minneapolis/St. Paul	Northwest	7	757	184	1,288
Newark	American	7	757	188	1,316
	Continental	1	757	175	175
New York-LGA	American	1	757	188	188
