

## **Addendum #1 - Response to Questions - 3/29/2023**

- 1. Per the Proposal Submittal Requirements, #5, Budget and Pricing, we were curious to know the total project budget as we are unable to locate this information in the RFP or via the Eagle County website.**

Eagle County Open Space has seen similar planning projects within Colorado with budgets between \$150,000-200,000, and expects the final project budget to be consistent with those examples. ECOS staff is cognizant of spending taxpayer dollars wisely, and will be taking this into account when reviewing proposals. However, staff also recognizes the importance of having a robust planning process for such a large scale project, and is willing to pursue supplemental funding sources if a compelling argument is made to do so.
