The 10-acre State Bridge Landing property was acquired by Eagle County Open Space in 2011 to provide a permanent public access point to the Colorado River. Eagle County anticipates that this property will be heavily used by those needing a put in or take out. Currently, the property is the subject of a management planning process that will plan for site development, determine allowable uses, consider staffing needs, and possible fee structures. Eagle County is working to develop a cooperative management agreement with the Bureau of Land Management. The intent is to have the site available for public use in the spring of 2012.

State Bridge Landing
