

Eagle County Street Address or Change of Address Request Form

2017

To better assure efficient delivery service and the timely response by emergency service providers, physical addresses are required for all home sites and businesses in Eagle County. The County uses a nationally recognized Uniform Measurement System referred to as the Century System.

Address numbers are based on fractions of a mile, which indicate the distance along a named County or Forest Service road traveled to reach a given driveway. While accuracy is important, an odometer reading to the nearest tenth of a mile from the origin of the road to the start of the driveway is usually sufficient to allow the assignment of an address. It is also important that physical addresses be properly sequenced along a road, and as such a verification of addresses that already exist in proximity to the subject property is required.

Please Check the Appropriate Box: ‰ Assignment <input type="checkbox"/> ‰ Correction <input type="checkbox"/>	Owner Name:
Mailing Address:	
Phone Number:	
Email Address:	
12 Digit Tax Parcel # : (328-8640 for info)	
Existing Address (if none leave blank)	
Name of Street, Town/Community	
Odometer reading from origin of street to start of driveway.	
Which side of the street, as one approaches from origin, is the property on?	‰ Left ‰ Right
Adjacent property addresses Below (Same side of street) Above
